

Qube × Apple Autumn Exclusive Rewards

Full Terms and Conditions

Promotion Period: 15 September to 14 October 2026 (MT5 Server Time GMT+3)

01 / General provisions

Organizer: This promotion is organized by Qube Markets Global Fintech Limited, trading as QUBE MARKETS (company number 16389), incorporated under the laws of the Union of Comoros, Offshore Finance Authority, registered office Boulevard de Coalancanthe, Muthusamudu, Anjouan, Union of Comoros, licence no. L16389/QMGFL (the Platform or the Cwe). Apple Inc. is not a sponsor, partner or administrator of, or otherwise associated with, this promotion.

Promotion period: 00:00 on 15 September 2026 to 23:59 on 14 October 2026, MT5 Server Time (GMT+3). Start and end times are determined by the Platform's system time; no participation or redemption applications are accepted after expiry.

Binding effect: By participating, a client is deemed to have fully read, understood and agreed to these Terms, the Client Agreement, the Risk Disclosure Statement and all other applicable QUBE Markets rules and policies.

Right to amend: QUBE Markets may amend, suspend or terminate the promotion or these rules as it considers necessary, and may adjust physical rewards and reference values in light of Apple launch, availability and price movements. Material changes are notified by website announcement, in-platform message or email; clients who have already qualified do not lose eligibility as a result. The Platform reserves the right of final interpretation.

Handling of violations: Where we have reasonable evidence of false deposits, sham trading, wash trading, malicious arbitrage, market manipulation, collusion, or participation using another person's account, we may cancel eligibility, revoke redemption rights and recover rewards already issued, without prior notice.

Disclaimers: All trading is based on the client's own independent judgment and the Platform assumes no responsibility for trading results. The Platform is not liable for breach where rewards are delayed or unavailable due to force majeure or circumstances beyond its reasonable control, but will notify affected clients and discuss a reasonable alternative. The Platform is not liable for indirect losses from data delays or errors caused by system maintenance, network failures or third-party providers, but will repair and restore data within a reasonable period.

02 / Eligibility

Eligible participants: Open to all clients in the Greater China region who are at least 18 years of age and have full legal capacity to act.

Prohibited participants: clients with account disputes, restrictions, a history of violations or risk-control flags; clients using multiple or related accounts to split funds or volume; Platform employees, employees of agents, Introducing Brokers and their immediate family members.

Basic requirements: Standard and ECN accounts only. Cent, PAMM, MAM, Agent and all institutional accounts are excluded. Each client may participate using one account only and must satisfy both the Net Deposit and Valid Trading Volume requirements of the relevant tier; both conditions are mandatory.

Account status: The participating account must remain in normal trading status throughout the promotion and until the reward is fully delivered, and must not be frozen, restricted, disputed or otherwise abnormal. Where a status is abnormal, the Platform may suspend or cancel redemption eligibility until it is resolved and confirmed following review.

03 / Tiers and reward rules

Tier determination: Based on cumulative Net Deposit and cumulative valid lots during the Promotion Period, matched to the highest tier achieved. Each client may redeem one tier only; tiers cannot be accumulated or combined.

Net Deposit: Total cumulative deposits minus total cumulative withdrawals during the Promotion Period. Only genuine cross-border/channel deposits are counted; internal transfers, transfers between accounts and agent commissions are excluded.

Availability: Due to limited initial production capacity, rewards are limited in quantity and allocated on a first-qualified, first-redeemed basis until stocks are exhausted. If a product is unavailable, the Platform may provide an alternative Apple product of equivalent value.

Duplicate participation: Multiple accounts linked to the same client, identity, bank card/payment channel, IP address or device fingerprint are treated as one participant and may redeem only one reward.

No cash alternative: All rewards are provided in physical form and cannot be exchanged for cash, used to offset trading margin, or converted into account credit or trading bonuses.

Value confirmation: Estimated values are based on projected prices from the Apple event of 9 September 2026; the official Apple retail price prevails. Where the actual price deviates from the estimate by more than 120%, the Platform may adjust the reward model within an equivalent value range.

04 / Trading volume rules

Scope: Only closed standard-lot trades count, with partial lots aggregated. Open positions, pending orders and cancelled orders are excluded. Lots across multiple accounts of the same client cannot be combined; each account is counted independently.

Holding period: Each order must be held for at least 3 minutes to count. Trades held for less than 3 minutes are excluded and treated as suspected sham trading. Where such trades exceed 20% of an account's total trades, the Platform may launch a risk-control review.

Excluded and prohibited trading: two-way or malicious hedging; arbitrage, high-frequency sham trading, wash trading; artificially generated volume, collusive trading, or trading with third-party tools (including EA/programmable high-frequency and API automated trading); trades executed during abnormal spreads or insufficient liquidity; trades between accounts of the same client acting as counterparties; any other pattern the Platform reasonably determines to be a violation.

Hedging restriction: Hedging volume must not exceed 50% of total trading volume; exceeding this cancels redemption eligibility. Hedging Volume Ratio = Hedging Order Volume / Total Trading Volume $\times$ 100%.

Withdrawals and Net Deposit lock: Net Deposit must be maintained until the promotion ends and the redemption application is submitted. If a withdrawal takes Net Deposit below the qualifying tier, the Platform may cancel or downgrade eligibility. If a client tops up after a withdrawal and requalifies, accumulated lots are unaffected.

05 / Participation and redemption

Process: Deposit and trade during the Promotion Period while the system tracks Net Deposit and valid lots in real time. After the promotion ends, the Platform verifies deposit records, trading records and account eligibility, and notifies qualified clients by in-platform message, email or customer service.

Application period: Within 14 calendar days after the promotion ends, qualified clients must send identity information, delivery address and contact details to support@qubemarkets.com in line with the Platform's instructions. Failure to submit valid information in time, or uncorrected errors, is deemed an automatic forfeiture.

Review: Submitted information must match the client's registered details (name, identification number, contact details). The Platform may request additional verification materials, to be provided within 7 calendar days. The delivery address should in principle match the country/region of residence registered at account opening.

Delivery: Once information is verified and the Apple product is publicly released, the Platform arranges dispatch within 14 business days; overseas procurement and cross-border logistics may cause delays for some premium products. Damage or loss in transit is handled under the carrier's rules; clients bear responsibility for incorrect delivery details. Any manufacturer warranty is subject to Apple's applicable warranty terms, eligibility requirements and regional service limitations.

06 / Violations and cancellation

Violations include: using related accounts, pooled funds or another person's identity to split funds or volume; making a large withdrawal immediately after a short-term deposit to qualify for a higher tier; high-frequency opening and closing with holding periods under 3 minutes or batch sham trading; hedging volume above 50%, malicious hedging, arbitrage or wash trading; providing false identity or delivery information or falsified records; complaints, third-party payment disputes or chargebacks during the promotion; exploiting system vulnerabilities, technical failures or pricing errors; any other breach of the Client Agreement, trading rules or these Terms.

Determination and appeals: Determination and enforcement rest with QUBE Markets, which may act without prior notice, and will notify the client by email or in-platform message. A client may submit a written appeal with supporting materials within 7 business days of notice. An appeal does not suspend enforcement; where an appeal shows the penalty was incorrect, the Platform will restore entitlements or compensate for recovered rewards.

07 / Participation restrictions

This promotion is mutually exclusive with other concurrent Platform campaigns (including bonus, rebate, trading contest, referral and loyalty programmes); one account may join one campaign only.

Once redeemed and dispatched, a reward cannot be returned, exchanged or converted to cash except for a product quality issue. If Apple discontinues the model, the Platform may substitute an Apple product of equivalent estimated value.

Stated reward values are estimates only and do not constitute trading consideration or a cash-equivalent commitment. Final retail price, specifications and availability are determined solely by Apple.

The promotion does not constitute any guarantee of trading profits. Deposit and trading decisions are made independently by the client, and the Platform will not compensate or refund trading losses.

08 / Taxes and legal matters

Taxes: All taxes and charges arising from receipt of a physical reward (including import duties, VAT, consumption tax and personal income tax) and any declaration obligations are borne by the client. The Platform does not withhold or file on the client's behalf and is not responsible for replacement where a reward is detained, returned or destroyed by customs.

Governing law: These Terms are governed by the laws of the Anjouan offshore jurisdiction, Union of Comoros. Personal information is processed under the QUBE Markets Privacy Policy and applicable data protection law.

Disputes: Disputes should first be resolved through friendly negotiation; failing that, either party may bring proceedings before a court of competent jurisdiction in Anjouan. Clients may not bring claims beyond the scope of these Terms on the basis of participation.

Priority and language: These promotion-specific Terms prevail over the Client Agreement. The English version is legally binding; translations are for reference only and the English version prevails in case of inconsistency.

09 / Risk disclosure

This promotion is a client rewards programme and does not alter the inherent trading risks of foreign exchange or CFD products.

Live FX and CFD trading involve a high level of risk; losses may exceed the initial deposit and clients bear all trading results independently.

Apple rewards are provided solely as a client benefit and do not constitute investment advice or a promise of returns. Specifications, launch dates and availability are determined by Apple.

Clients should not deposit or trade beyond their risk tolerance in order to obtain a reward. Leveraged trading can lead to rapid loss of capital; decide carefully.

Do not deposit or trade solely to obtain a promotional benefit. Participation is voluntary, does not improve trading performance and does not reduce trading risk.
