Each client may redeem only one tier reward. Multiple tiers may not be combined, and tier rewards may not be combined for redemption.

border/channel deposits are counted. Internal transfers, transfers between accounts, and agent commissions are excluded from Net Deposit.

3. **Reward Availability:** Due to limited initial production capacity of new Apple products, rewards are limited in quantity and will be allocated on a first-qualified, first-redeemed basis until stocks are exhausted. If the relevant new product is unavailable, the Platform may provide an alternative Apple product of equivalent value.

4. Trading Volume Rules (Definition of Valid Trading Volume)

4.1 Scope of Valid Trading Volume

Only closed trades executed in standard lots will count toward Valid Trading Volume. Fractional lot sizes will be aggregated. Open positions, pending orders, and cancelled orders will not count. Trading volume from multiple accounts held by the same client cannot be combined and will be calculated independently for each account.

4.2 Minimum Holding Period

Each order must remain open for at least 3 minutes after being opened in order to count toward Valid Trading Volume. Trades held for less than 3 minutes will be excluded from the calculation and will simultaneously be classified as suspected sham trading. If, during the Promotion Period, trades held for less than 3 minutes account for more than 20% of all trades in the same account, the Platform reserves the right to deem the account suspicious of sham trading and initiate a risk-control review.

4.3 Prohibited Trading Activities Excluded from Valid Trading Volume

The following types of trades will not count toward Valid Trading Volume, and the Platform reserves the right to classify them as violations and cancel Promotion eligibility:

1. Two-way hedging or malicious hedging;
2. Arbitrage, high-frequency sham trading, or wash trading;
3. Artificially generating false trading volume, collusive trading, or trading with the assistance of third-party tools (including high-frequency EA/programmatic trading and API automated trading);

5. Trades between multiple accounts held by the same client where such accounts act as counterparties to one another;
6. Any other trading pattern that the Platform reasonably determines to constitute a violation.

4.4 Hedging Restrictions

During the Promotion Period, the proportion of a client's hedging volume to total trading volume must not exceed 50%. Exceeding this threshold will result in immediate cancellation of the reward redemption eligibility. The calculation is as follows:

Hedging Volume Ratio = Hedging Order Volume ÷ Total Trading Volume × 100%

Hedging trades shall be identified based on the Platform's risk-control system, including but not limited to orders opened in opposite directions, with similar lot sizes, in the same or highly correlated instruments within a similar period of time.

4.5 Withdrawal and Net Deposit Lock-in Requirements

1. Net Deposit Lock-in Period: Once a client meets the applicable tier requirements during the Promotion Period, the qualifying Net Deposit must be maintained until the end of the Promotion Period and the submission of the reward redemption application. If a withdrawal during the Promotion Period or between the end of the Promotion Period and completion of reward delivery causes the client's Net Deposit to fall below the qualifying tier threshold, the Platform reserves the right to cancel or downgrade the reward redemption eligibility.
2. Early Withdrawal Rule: If a client makes a withdrawal during the Promotion Period and subsequently makes additional deposits sufficient to restore the required Net Deposit, the client's trading volume accumulation will not be affected. Trading volume executed on the withdrawal date will continue to be counted normally.

5. Participation and Reward Redemption Process

5.1 Participation Process

Eligible clients shall participate in the Promotion according to the following process:

1. During the Promotion Period, the client deposits funds into the account and conducts trades. The system will automatically and in real time calculate the Net Deposit amount and Valid Trading Volume;

2. Failure to submit valid information within the specified period, or submission of incorrect information that is not corrected in time, will be deemed an automatic forfeiture of the reward, and the relevant entitlement will expire without replacement.

Supplementary Note: New Apple products may be subject to delayed launch. If a reward has not yet been publicly released, the Platform will arrange delivery after the relevant product is officially launched.

5.3 Redemption Information Review

1. The redemption information submitted by the client must be consistent with the information registered with the Platform, including but not limited to the client's name, identification document number, and contact details;

2. The Platform reserves the right to request additional identity verification documents, such as a copy of an identification document or proof of deposit. The client must provide such documents within 7 calendar days of receiving the request. Failure to do so will be deemed a forfeiture of the redemption eligibility;

3. In principle, the delivery address must be located in the country/region of residence registered by the client at account opening. If a change is necessary, the client must provide a reasonable explanation and supporting documentation.

Due to overseas procurement and cross-border logistics, delivery of certain high-end Apple products may be delayed;

2. Logistics Responsibility: Damage or loss occurring during transportation shall be handled in accordance with the rules of the logistics carrier. If delivery cannot be completed due to an incorrect delivery address or contact information provided by the client, the client shall bear the responsibility. If the external packaging is visibly damaged upon receipt, the client should note the exception with the logistics personnel at the time of delivery and take photographs for subsequent claims;

3. Warranty: **Any manufacturer warranty is subject to Apple's applicable warranty terms, eligibility requirements and regional service restrictions. 7. Promotion Participation Restrictions

1. This Promotion is mutually exclusive with other marketing campaigns conducted by the Platform during the same period, including but not limited to bonus campaigns, rebate campaigns, trading competitions, referral rewards, and points programmes. If Apple officially discontinues the relevant model, the Platform reserves the right to replace it with an Apple product of equivalent estimated value;
3. Any stated reward value is an estimated reference value only and does not constitute trading consideration or a commitment to provide a cash equivalent. The final retail price, specifications, and availability of new Apple products shall be determined solely by Apple;
4. By participating in the Promotion, the client acknowledges and agrees that the Promotion does not constitute any guarantee of trading profits by the Platform. All deposit and trading decisions made during the Promotion Period are undertaken independently by the client;
